

KATANA MKII VERSION 2.0 SOFTWARE UPDATE

More features. No additional cost.

KATANA

NOW EVEN SHARPER

The **free** Katana MkII Version 2.0 software update delivers a host of new features that **further enhance** the capabilities of your BOSS Katana MkII guitar amplifier.

Version 2.0 elevates the expressive power of your amp with **newly added tone-shaping tools** available in the BOSS Tone Studio app.

CONTOUR SETTINGS

Shape your core tone with three different Contour settings, each with four customizable frequency curves to choose from.

NEW SOLO BLOCK IN FX CHAIN

Refine your lead guitar voice with a moveable Solo block, which can be assigned for on/off control via an external footswitch or the GA-FC Foot Controller.

NEW EQ BLOCK IN FX CHAIN

Moveable EQ block for additional tonal adjustment.

TWO NEW EFFECTS

Centa OD (Booster block) and Solo EQ (Solo block).

THREE GLOBAL EQs

Fine-tune the overall sound for different guitars and styles.

EXPANDED CAB IR CAPABILITIES

The Line Out cabinet IR options now include selectable microphone types and positions, giving you greater control of your direct sound.

COMPATIBLE AMPS

Katana MkII Version 2.0 software is available for the following:

- Katana-50 MkII
- Katana-100 MkII
- Katana-100/212 MkII
- Katana-Head MkII
- Katana-Artist MkII

HOW TO UPDATE

To access the new features, your customers will need to update their BOSS Tone Studio app (via the app), and the firmware on their Katana MkII amp (via the product support page on boss.info).

Please remember to update your demo stock and product listings.
