

# GA-FC COMPATIBLE PRODUCTS

## Floor Control for Roland and BOSS Amps

If you want to keep your hands on your guitar or bass at all times, the GA-FC Foot Controller lets you drive Roland and BOSS amps from the floor. It allows for expansion as well: plug in optional expression pedals, and more.

## OVERLAY LABELS

### Model-Specific Labels

Each compatible BOSS and Roland amp comes with a model-specific overlay sticker for GA-FC.

## HOW TO CONNECT

### TRS 1/4" Cable

The GA-FC includes a short TRS 1/4" cable for connection to the amp. Optional BOSS BCC-TRA Series cables are available up to 9 metres.

## EXPANSION

### Expression Pedals & Footswitches

Up to two external expression pedals (Roland EV-5, BOSS FV-500L, or BOSS FV-500H) or footswitches (BOSS FS-5U) can be connected to GA-FC. Various functions can be assigned via BOSS Tone Studio for Katana MkII and Katana Bass Editor software.
