

Applications

- **Public monitoring of sound pressure levels in activities:** Discotheques, TV sets, etc.
- **Industrial activities:** Information of sound pressure levels at workplace.
- **Visualization and information of sound pressure levels in environmental stations (noise pollution).**

Main features

- LED giant digits
- Indoor and Outdoor environments
- Easy installation
- Easy reading from a distance
- To be used with loggers and limiters

DL100 in light environment

DL100 in dim environment

The external display DL100 consists of four 100 mm red LED digits that displays the sound pressure level measured by the **CESVA** loggers and limiters.

Thanks to its weather proof design, the DL100 can be installed inside and outside. The bright red light of the digits allows you a perfect reading from the distance both in light or dim environments.

The DL100 is perfect for public monitoring of sound pressure levels in noisy activities or as an information point of noise levels.

Technical specifications

- Power supply 230 V 50 Hz
- Digit dimension 100 mm
- Number of digits: 4
- Type of digits: numerical of 8 Leds
- External dimensions: 610 x 314 x 78 mm
- Weight: 6 kg
