GUITAR HEADPHONE AMP

MUSTANG™ MICRO PLUS

GUITAR HEADPHONE AMP

Introducing Mustang Micro Plus, the next Personal Guitar Amp From Fender.

Mustang Micro Plus takes everything players love about Mustang Micro to the next level. With 25 amps and 25 effects onboard, Mustang Micro Plus is the ultimate personal guitar amplifier for guitar and bass. We've added 100 user editable presets with Fender Tone App support, an integrated tuner, and a display.

Everything you need to jam is built right in. Just plug Micro Plus directly into your guitar jack, connect a pair of ear buds or headphones, choose from a selection of amazing factory presets from clean to scream.

The Mustang Micro Plus rechargeable battery makes it the perfect companion for playing at home or on the go. And with Micro Plus built-in Bluetooth audio streaming, you can jam along to your favorite songs or guitar videos in real time.
