

# Fuel Tank Chameleon

**You've got the pedals, we've got the power**

## **Introducing Fuel Tank Chameleon, our most versatile power supply yet**

The classic T-Rex pedals you've collected over the years all work together to tell an amazing story – the story of your unique sound, and the sonic footprint you leave behind wherever you play. But to tell your story well – the way it deserves to be told – your pedals have to work perfectly. All together. Every time. With no hassles.

### **4 separate voltage options**

Enter the new Fuel Tank Chameleon, the most versatile power supply T-Rex has ever produced. Built for players with a large number of diverse pedals, Fuel Tank Chameleon offers all the advantages of our other Fuel Tank power supplies, plus an unprecedented 4 separate voltage options.

Here's what you get:

- 6 separate outlets (use up to 5 simultaneously)
- Your choice of 9V DC, 12V DC, 18V DC or 12V AC power
- Isolated, 300mA outlets (1,500mA total)
- Switchable 115V or 230V mains
- All the cables you need
- Compact, rugged, road-ready design
- Legendary T-Rex quality

### **Part of the Fuel Tank family**

The Fuel Tank Chameleon is only the latest addition to the T-Rex Fuel Tank family. Our original Fuel Tank Classic features 5 outlets and is ideal for medium-sized pedal boards. It comes with lots of single patch cables and a multiple link cable. The Fuel Tank "Juicy Lucy" powers 5 12V pedals and also offers great extras, like multiple unit linking. The baby of the family – Fuel Tank Junior – is a good choice for a small number of 9V pedals. It offers both currency doubling to 240 mA and voltage doubling to 18V.

### **About T-Rex Engineering**

Based in Vejle, Denmark, T-Rex Engineering makes classic and signature effect pedals for the world's best musicians. Our approach blends hi-tech innovation with old-world craftsmanship – always in the service of killer tone.
